# INDEX TO VOLUME 16

A

Page

Absolute reflectometer ..... 421
Adjustment of parabolic and linear curves to observations taken at equal intervals of the independent variable ..... 363
*Agnew, P. G.*, A new form of vibration galvanometer ..... 37
Air forces on circular cylinders, axes normal to the wind, with special reference to dynamical similarity ..... 489
Alternating-current resistance and inductance of conductors ..... 93
Ammonia, Vapor pressure ..... 1
Ammonium persulphate for revealing the macrostructure of iron and steel ..... 715
Annealed carbon steels ..... 557
Arc lamp, cadmium-vapor ..... 45
Arc spectra of seven elements, Wave lengths longer than 5500 A in ..... 51
Arcs, low-voltage ..... 309, 725
Atmosphere, relative spectral transmission of the ..... 377
Atomic theory and low-voltage arcs in caesium vapor ..... 309

B

*Bates, Frederick*, A new cadmium-vapor arc lamp ..... 45
*Bennett, A. H., T. T. Smith, and G. E. Merritt*, Characteristics of striae in optical glass. 75
Brinell hardness of annealed carbon steels ... 557
Brittleness of lead ..... 215

C

Cadmium-vapor arc lamp ..... 45
Caesium vapor, low-voltage arcs in ..... 309
Carbon steel, eutectoid, as related to magnetic reluctivity ..... 739
Carbon steels, heating of ..... 537
Cell, Clark, Two common failures of ..... 409
Changes in a group of objects, detection of ... 437
Changes, Thermal and physical, accompanying the heating of hardened carbon steels .. 537
Characteristics of striae in optical glass ..... 75
*Cheney, W. L.*, Measurement of hysteresis values from high magnetizing forces ..... 281
——, *C. Nusbaum, and H. Scott*, Magnetic reluctivity relationship as related to certain structures of a eutectoid carbon steel ..... 739
——, *R. L. Sanford, and*, Variation of residual induction and coercive force with magnetizing force ..... 291
Clark standard cell ..... 409
Clerget divisor ..... 125
*Coblentz, W. W.*, Infra-red transmission and refraction data on standard lens and prism material ..... 701
——, Positive and negative photoelectrical properties of molybdenite and several other substances ..... 595
——, Reflecting power of Monel metal, stellite, and zinc ..... 249
——, Spectrophotoelectric sensitivity of thalofide ..... 253
——, *and H. Kahler*, A new spectropyrheliometer and measurements of the component radiations from the sun and from a quartz-mercury vapor lamp ..... 233
Coercive force ..... 291
Commercial nickel steels, critical ranges of ... 195
Common failures of the Clark standard cell .. 409
Compasses, magnetic ..... 273
Completely modulated waves, transmitter of. 259
Complicated group of objects, detection of changes in ..... 437
Component rediations from the sun and from a quartz-mercury vapor lamp ..... 233
Conductors, resistance and inductance of .... 93
Copper, reagents for etching ..... 641
*Cragoe, Carl S., Cyril H. Meyers, and Cyril S. Taylor*, Vapor pressure of ammonia ..... 1
*Cragoe, C. H., C. G. Peters and*, Measurements on the thermal dilatation of glass at high temperatures ..... 449
Critical ranges of some commercial nickel steels ..... 195
*Curtis, Harvey L.*, An integration method of deriving the alternating-current resistance and inductance of conductors ..... 93
Cylinders, circular, Air forces on ..... 489

D

Densities, photographic, microphotometer for 299
Deriving the alternating-current resistance and inductance of conductors ..... 93
Detecting changes in a complicated group of objects ..... 437
Diffuse reflection factors, Measurement ..... 421
Dilatation, thermal, of glass at high temperatures ..... 449
Divisor, Clerget ..... 125
Double-polarization method for estimation of sucrose, and the evaluation of the Clerget divisor ..... 125
*Dryden, Hugh L.*, Air forces on circular cylinders, axes normal to the wind, with special reference to dynamical similarity ..... 489
Dynamical similarity ..... 489

E

Page

*Edwards, Junius David, and S. F. Pickering,* Permeability of rubber to gases..... 327
Electron tube transmitter of completely modulated waves..... 259
Elements, nonmetallic, Ionization and resonance potentials of..... 669
Elements, Wave lengths longer than 5500 A in the arc spectra of..... 51
Estimation of sucrose..... 125
Etching reagents for copper..... 641
Eutectoid carbon steel, certain structures of, as related to magnetic reluctivity..... 739
Evaluation of the Clerget divisor..... 125

F

Factors, diffuse reflection..... 421
Failure, The two common, of the Clark standard cell..... 409
Force, coercive..... 291
Forces, Air, on circular cylinders..... 489
Forces, magnetizing..... 281, 291
*Foote, Paul D., and W. F. Meggers,* Atomic theory and low-voltage arcs in caesium vapor..... 309
——, *W. F. Meggers and,* New microphotometer for photographic densities..... 299
——, *F. L. Mohler and,* Ionization and resonance potentials of some nonmetallic elements..... 669
——, *F. L. Mohler, and W. F. Meggers,* Resonance potentials and low-voltage arcs for metals of the second group of the periodic table..... 725

G

Galvanometer, vibration, New form..... 37
Gases, Permeability of rubber to..... 327
*Gillis, Clara L., Richard F. Jackson and,* The double-polarization method for estimation of sucrose, and the evaluation of the Clerget divisor..... 125
Glass, optical, striae in..... 75
Grain size of annealed carbon steels..... 557

H

Hardened carbon steels, heating of..... 537
Heating of hardened carbon steels..... 537
High magnetizing forces, hysteresis values from..... 281
High-speed steel..... 521
High temperatures, glass at..... 449
High-temperature treatment of high-speed steel..... 521
*Hull, Lewis M.,* An electron tube transmitter of completely modulated waves..... 259
Hysteresis values from high magnetizing forces..... 281

I

Independent variables..... 363
Inductance of conductors..... 93
Induction, residual..... 291
Infra-red transmission and refraction data on standard lens and prism material..... 701

Page

Integration method of deriving the alternating-current resistance and inductance of conductors..... 93
Intercrystalline brittleness of lead..... 215
Ionization and resonance potentials of some nonmetallic elements..... 669
Iron, macrostructure revealed by ammonium persulphate..... 715

J

*Jackson, Richard F., and Clara L. Gillis,* The double-polarization method for estimation of sucrose, and the evaluation of the Clerget divisor..... 125
*Jimeno-Gil, Emilio, H. S. Rawdon and,* A study of the relation between the Brinell hardness and the grain size of annealed carbon steels..... 557

K

*Kahler, H., W. W. Coblentz and,* A new spectropyrheliometer and measurements of the component radiations from the sun and from a quartz-mercury vapor lamp..... 233
*Karrer, Enoch, and E. P. T. Tyndall,* Relative spectral transmission of the atmosphere..... 377
*Kiess, C. C. and W. F. Meggers,* Wave lengths longer than 5500 A in the arc spectra of seven elements..... 51

L

Lamp, cadmium-vapor arc..... 45
Lamp, quartz-mercury vapor..... 233
Lead, Intercrystalline brittleness of..... 215
*Lorentz, Marjorie G., H. S. Rawdon and,* Metallographic etching reagents; I, for copper..... 641
Low-voltage arcs for metals..... 725
Low-voltage arcs in caesium vapor..... 309

M

Macrostructure of iron and steel revealed by ammonium persulphate..... 715
Magnetic compasses, Testing of..... 273
Magnetic reluctivity relationship as related to certain structures of a eutectoid carbon steel..... 739
Magnetizing forces..... 281, 291
*McKelvy, E. C., and M. P. Shoemaker,* Two common failures of the Clark standard cell.. 409
Measurement of hysteresis values from high magnetizing forces..... 281
Measurements of diffuse reflection factors, and a new absolute reflectometer..... 421
Measurements of the component radiations from the sun and from a quartz-mercury vapor lamp..... 233
Measurements on the thermal dilatation of glass at high temperatures..... 449
*Meggers, W. F., and Paul D. Foote,* New microphotometer for photographic densities.. 299
——, *Paul D. Foote and,* Atomic theory and low-voltage arcs in caesium vapor..... 309
——, *C. C. Kiess and,* Wave lengths longer than 5500 A in the arc spectra of seven elements..... 51

Page

*Meggers, W. F., F. L. Mohler, Paul D. Foote, and*, Resonance potentials and low-voltage arcs for metals of the second group of the periodic table ..... 725
*Merritt, G. E., T. T. Smith, A. H. Bennett and*, Characteristics of striae in optical glass ..... 75
Metallographic etching reagents; I, for copper. 641
Metals of the second group of the periodic table ..... 725
Method, double-polarization, for estimation of sucrose ..... 125
Method, integration, of deriving the alternating-current resistance and inductance of conductors ..... 93
Method, Photographic, of detecting changes in a complicated group of objects ..... 437
*Meyers, Cyril H., Carl S. Cragoe, and Cyril S. Taylor*, Vapor pressure of ammonia ..... 1
Microphotometer for photographic densities .. 299
Modulated waves, transmitter of ..... 259
*Mohler, F. L., and P. D. Foote*, Ionization and resonance potentials of some nonmetallic elements ..... 669
——, *Paul D. Foote, and W. F. Meggers*, Resonance potentials and low-voltage arcs for metals of the second group of the periodic table ..... 725
Molybdenite, photoelectrical properties of .... 595
Monel metal ..... 249
*Movius, H. Gretchen, Howard Scott and*, Thermal and physical changes accompanying the heating of hardened carbon steels ..... 537

N

Negative photoelectrical properties of molybdenite ..... 595
New absolute reflectometer ..... 421
New cadmium-vapor arc lamp ..... 45
New form of vibration galvanometer ..... 37
New microphotometer for photographic densities ..... 299
New spectropyrheliometer and measurements of the component radiations from the sun and from a quartz-mercury vapor lamp .... 233
Nickel steels, Critical ranges of ..... 195
Nonmetallic elements, Ionization and resonance potentials of ..... 669
*Nusbaum, C., W. L. Cheney, and H. Scott*, Magnetic reluctivity relationship as related to certain structures of a eutectoid carbon steel ..... 739

O

Optical glass, striae in ..... 75

P

Parabolic and linear curves, Adjustment of .. 363
Periodic table, metals of the second group ... 725
Permeability of rubber to gases ..... 327
*Peters, C. G., and C. H. Cragoe*, Measurements on the thermal dilatation of glass at high temperatures ..... 449
Photoelectrical properties of molybdenite .... 595
Photographic densities, microphotometer for. 299

Page

Photographic method of detecting changes in a complicated group of objects ..... 437
Physical changes accompanying the heating of hardened carbon steels ..... 537
*Pickering, S. F., Junius David Edwards and*, Permeability of rubber to gases ..... 327
Positive and negative photoelectrical properties of molybdenite and several other substances ..... 595
Potentials, ionization ..... 669
Potentials, resonance ..... 669, 725
Pressure, Vapor, of ammonia ..... 1
Properties, photoelectrical, of molybdenite ... 595

Q

Quartz-mercury vapor lamp, measurements of radiation from ..... 233

R

Radiations from the sun and from a quartz-mercury vapor lamp ..... 233
Ranges, Critical, of some commercial nickel steels ..... 195
*Rawdon, Henry S.*, Intercrystalline brittleness of lead ..... 215
——, Use of ammonium persulphate for revealing the macrostructure of iron and steel. 715
——, *and Emilio Jimeno-Gil*, A study of the relation between the Brinell hardness and the grain size of annealed carbon steels .... 557
——, *and Marjorie G. Lorentz*, Metallographic etching, reagents; I, for copper ..... 641
Reagents for etching copper ..... 641
Red hardness of high-speed steel ..... 521
Reflecting power of Monel metal, stellite, and zinc ..... 249
Reflection factors, diffuse ..... 421
Reflectometer, new absolute ..... 421
Refraction, Infra-red, data ..... 701
Relation between the Brinell hardness and the grain size of annealed carbon steels .... 557
Relation of the high-temperature treatment of high-speed steel to secondary hardening and red hardness ..... 521
Relative spectral transmission of the atmosphere ..... 377
Reluctivity, magnetic ..... 739
Residual induction ..... 291
Resistance of conductors ..... 93
Resonance potentials ..... 669
Resonance potentials and low-voltage arcs for metals of the second group of the periodic table ..... 725
*Roeser, Harry M.*, Adjustment of parabolic and linear curves to observations taken at equal intervals of the independent variable. 363
Rubber, Permeability of, to gases ..... 327

S

*Sanford, R. L.*, Testing of magnetic compasses ..... 273
——, *and W. L. Cheney*, Variation of residual induction and coercive force with magnetizing force ..... 291

Page

*Scott, Howard,* Critical ranges of some commercial nickel steels ... 195
——, Relation of the high-temperature treatment of high-speed steel to secondary hardening and red hardness ... 521
——, *and H. Gretchen Moxius,* Thermal and physical changes accompanying the heating of hardened carbon steels ... 537
——, *C. Nusbaum, W. L. Cheney and,* Magnetic reluctivity relationship as related to certain structures of a eutectoid carbon steel ... 739
Secondary hardening of high-speed steel ... 521
Sensitivity of thalofide ... 253
*Shoemaker, M. P., E. C. McKelvy and,* Two common failures of the Clark standard cell. 390
*Smith, T. T., A. H. Bennett, and G. E. Merritt,* Characteristics of striæ in optical glass ... 75
Spectra, arc, of seven elements ... 51
Spectral transmission of the atmosphere ... 377
Spectrophotoelectric sensitivity of thalofide ... 253
Spectropyrheliometer, new ... 233
Standard cell, Clark ... 409
Standard lens and prism material, Infra-red transmission and refraction data on ... 701
Steel, high-speed ... 521
Steel, macrostructure revealed by ammonium persulphate ... 715
Stellite ... 249
*Stillman, M. H.,* A photographic method of detecting changes in a complicated group of objects ... 437
Striæ in optical glass ... 75
Study of the relation between the Brinell hardness and the grain size of annealed carbon steels ... 557
Sucrose, estimation of ... 125
Sun, measurements of radiations from ... 233

T

*Taylor, A. H.,* Measurement of diffuse reflection factors and a new absolute reflectometer ... 421
*Taylor, Cyril S., Carl S. Cragoe, Cyril H. Meyers, and,* Vapor pressure of ammonia ... 1
Testing of magnetic compasses ... 273
Thalofide, Spectrophotoelectric sensitivity of ... 253
Theory, Atomic ... 309
Thermal and physical changes accompanying the heating of hardened carbon steels ... 537
Thermal dilatation of glass at high temperatures ... 449
The two common failures of the Clark standard cell ... 409
Transmission, Infra-red, data ... 701
Transmission, Relative spectral, of the atmosphere ... 377
Transmitter, Electron tube, of completely modulated waves ... 259
Treatment, high-temperature, of high-speed steel ... 521
*Tyndall, E. P. T., Enoch Karrer and,* Relative spectral transmission of the atmosphere ... 377

U

Use of ammonium persulphate for revealing the macrostructure of iron and steel ... 715

V

Values, hysteresis, from high magnetizing forces ... 281
Vapor, cadmium, arc lamp ... 45
Vapor, caesium, low-voltage arcs in ... 309
Vapor lamp, quartz-mercury ... 233
Vapor pressure of ammonia ... 1
Variable, independent ... 363
Variation of residual induction and coercive force with magnetizing force ... 291
Vibration galvanometer, new form of ... 37

W

Wave lengths longer than 5500 A in the arc spectra of seven elements ... 51
Waves, transmitter of modulated ... 259

Z

Zinc ... 249
